RE: Walworth County Judicial Center

Dear Michael:

Part of J.P. Cullen's internal quality policy is to ask superintendents and project managers for an evaluation of any subcontractors and/or suppliers at the end of the job. Past performance is one of the factors used in evaluating a subcontractor/supplier's capability to do future work.

Attached you will find a copy of the subcontractor performance evaluation form done by Kendall McWilliams and Dave Schaller relative to your company's performance on the Walworth County Judicial Center project.

You will see that our team has rated your performance as Very Good or Excellent in all rating categories.

I would like to take this opportunity on behalf of myself, Kendall McWilliams, Dave Schaller and J.P. Cullen & Sons, Inc. to thank you for a job well done.

Sincerely,
J.P. Cullen & Sons, Inc.

Daniel A. Swanson
Vice President of Project Management
